IN A NUTSHELL

What do I bring to the table?

Highly passionate developer with the willingness to learn any technology that is needed that I don't know. My background in web design would make me a valuable asset to any team. If you would ask me what my best programming skill is, I'd say it's "React" with "CSS/SASS" for the best user experience.

I don't want...

...Just a job. I want to have a connection with people I'm going to work with; I don't want to see them as just my co-workers. My goal is to have a good impact on every job I'll ever have.

Technical Skills

HTML5, CSS3, React, Node, Express JS, MongoDB, SQL

EXPERIENCE

Freelance | Labella Pizza, Waterford NY (in-progress)

- I built this static website for a small local business using HTML5, CSS3, JS
